

Royksopp, What Else Is There

It was me on the road
But you couldn't see me
Too many lights out,
But nowhere near here

It was me on the road
Still you couldn't see me
And the flashlights
and explosions

Roads and getting nearer
We cover distance but not together

I am the storm
I am the wonder
And the flashlights nightmares
and sudden explosions

I don't know what more to ask for
I was given just one wish

It's about you and the sun
A morning run
The story of my maker
What I have and what I ache for

I've got a golden ear
I cut and I spear
And what else is there

Roads and getting nearer
We cover distance still not together

If I am the storm
If I am the wonder
Will I have flashlights
nightmares
And sudden explosion

There's no room where
I can go and You've got secrets too

I don't know what more to ask for
I was given just one wish
