

Ruarri Joseph, Suzie Don't Be Sad

You call yourself a partner?
You call yourself a friend?
When the love you had was out on strike
And will be til the end

You call yourself a hippy?
You call yourself laid back?
With a mind so tense it shakes like milk
And sticks like old blue-tac

Well Suzie, dont be sad
Coz thats your lot and what you had
Suzie dig your hole round someone else
Thats also going down

You spare no thought for value
You spare no thought for change
Well the boat comes in to save your soul
But youd rather re-arrange

You stand on raw commitment
You stand with your red flag
With no surrender and no desire
To wave a trusting hand

Well Suzie, dont be sad
Coz thats your lot and what you had
Suzie dig your hole round someone else
Thats also going down
