Ruarri Joseph, Suzie Don't Be Sad

You call yourself a partner? You call yourself a friend? When the love you had was out on strike And will be til the end

You call yourself a hippy? You call yourself laid back? With a mind so tense it shakes like milk And sticks like old blue-tac

Well Suzie, dont be sad Coz thats your lot and what you had Suzie dig your hole round someone else Thats also going down

You spare no thought for value You spare no thought for change Well the boat comes in to save your soul But youd rather re-arrange

You stand on raw commitment You stand with your red flag With no surrender and no desire To wave a trusting hand

Well Suzie, dont be sad Coz thats your lot and what you had Suzie dig your hole round someone else Thats also going down
