

# Ruarri Joseph, There We'll Be

You know that Ill always be there for you  
Ive just got a funny way of showing  
Sometimes the labour we wish would desert us  
Confuses the hell out of where were going

The starsll nearly be all gone  
The world is down to its last one  
The moon alone for the last dance  
The summer down to its last chance

And there we'll be  
There we'll be

You know that your arms are always welcome  
For those tiny moments that Im there  
Sometimes the face doesnt say what the head thinks  
But then it dont say too much at all

The starsll nearly be all gone  
The world is down to its last one  
The moon alone for the last dance  
The summer down to its last chance

And there we'll be  
There we'll be
