

Rubberman, More That I Can Chew

Lay me down
The party is over everyone's gone
Lay me down
And we can keep the lights on
Taste of wine on your lips
Your lips they roll on
Lay me down
And we keep the lights on

Always bit off more than I could chew
This time around it's loving you
What's done is done
What's through is through

Lay me down
The wine is gone and everyone is home
Lay me down
'Cause no one's driving, driving this boy home
Taste of smoke on your tongue
Your tongue it rolls on
Lay me down
And we keep the lights on
