

Ruben Studdard, One Side

one side of the story (4times)

uh

tell your mother
its alright.
tell your sisters and brothers
its ok
your friends are on the way
tell them calm down.
cause they dont even know
we gon'work this out.
cuase thats how it starts right there
telling everybody, round here.
whats going on between us
we cant let them all in here.
cause everybody aint for us,
specially me,when they over here.

one side of the story,and thats your side of the story.
and they make up every story,i wonder what would happen'if they,
only heard my story.
that i love you only, baby cant u see?
they dont know about you and me.

I got an idea, u should get away.
somewhere with a view of the ocean
for a couple days.
all night, gurl we can may break up
to make up, love.
and realize that nobody but me is there for us.?
mm,and if the phone rings, let it ring.
if there's a knock at the door,let it knock.
if this the end of the world, let it end.

at least i will be with my girl,let it end
cause everybody anint for us,
specially me.when they only hear

one side of the story,and thats your side of the story.
and they make up every story,i wonder what would happen'if they,
only heard my story.
that i love you only, baby cant u see?
they dont know about you and me.

when they see you cryin
they dont know i'm high
when they feel your pain
they dont know im wese off
but i hold it in
till i see you agian
cause i dont want to answer to nobody but you.

they olny heeeaaaarrrrrrr,your side

one side of the story,and thats your side of the story.
and they make up every story,i wonder what would happen'if they,
only heard my story.
that i love you only, baby cant u see?
they dont know about you and me.

they dont know
what we know
baby tell them that

they dont know
why we know
