

Rubettes, Tonight

Tonight won't be like any night
Tonight the stars up in the sky
Will be shining for me and my baby tonight

Tonight we'll climb the highest height

Just talking till the morning light
Me and my baby tonight.
Oh tonight.

Tonight was made for me and my baby
To hold each other so tight
And all the darkness will fade away
The light in your eyes tonight.

Tonight won't be like any night . . .
