

Ruby Amanfu, Sugah

Oooh, oooh
Oooh, oooh
Oooh, oooh

(Chorus)

Sugah, sugah, come to me,
I'll give you something you'll believe
Sugah, sugah, come for me
Let this love come from me
Sugah, sugah, come for me
I'll give you something you'll believe

Last night an angel came for me
Woke me out of sleep
Said, Girl, you best get on your feet,
Don't miss the ride
Last night that angel spoke to me
Said I was going deep
Said I shouldn't fight the love I feel inside

Never mind about when I tried to say
That you were in the way
Forget about those games I used to play,
Don't press rewind
Baby, I can't have another man,
I want you in my life
Honey, you could be the perfect for me
For all time

(Bridge)

If I told you, too many times
That you would make me feel alive
I just want to know you, never let you hide
Even all your little white lies
Only gonna be a matter of mind
Till you believe in love divine

(Repeat chorus *1)

I never thought I'd find myself
Acting like a fool
I'll never calm a buzz like this
The fever's burning through
So the poison's invaded and now I begin
To not know what to do
Just the smell of you got me going back to school

(Repeat bridge *1)

Sugah, oh yeah
Sugah, oh yeah

(Repeat bridge *1)

(Repeat chorus to fade).
