Ruby, Carondelet

I feel like burnin' this town
This fear is bringin' me down
I feel like breakin' this town
This fear is burnin' me now
How can you live with this shit goin' on
I feel like burnin' this town
My fear is walkin' around

How can you live X3
Now, now

To be there is all I could do
Is that so wrong
Just one care is all I could find
Now it's gone
I'd open my heart just to see
What's inside
A mountain of raw that's too
Big to hide

How can you live X3
Now, now

When I say I love you, I know that I lie
But it feels so good to scream it out loud
At least I try
This fear, this fear is burnin' me now
is that all I can get now?
This fear, this fear is bringin' me down
I know it's not mine
This fear, this fear is breakin' me down
It's all wrong
This fear, this fear is bringin' me down
is that all I can get now?
My fear is walkin' around

How can you live X3
Now, now
To be there is all I could do
Is that so wrong
Now
Just one care is all I could find
Now it's gone
Now
I'd open my heart just to see what's inside
Now
A mountain of raw that's too big to hide
Now
