

# Rubyhorse, Any Day Now

The sun is down  
I'm coming 'round  
But I don't belong  
In this part of town  
So lead me high  
Don't leave me low  
And when I'm away  
Lead me home  
Any day now  
You can save me  
As I go up in flames  
Any day now  
Skies may open  
But they'll wash me away  
Give me one last try  
Before you hang me out to dry  
'Cause how can you be sure  
That you won't need something that you can remember me by?  
So many days  
Away from home  
Like some kind of freak  
In a travelling show  
Don't hold your breath  
Or wait for me  
I'm already gone  
There's nobody here  
Any day now  
You can save me  
As I go down in flames  
Every way now  
You deceive me  
When you promise to stay  
Give me one last try  
Before you hang me out to dry  
'Cause how can you be sure  
That you won't need something that you can remember me by?  
Something you need  
Any day now  
Any way at all  
Any day now  
Any way at all  
Give me one last try  
Before you hang me out to dry  
'Cause how can you be sure  
That you won't need something that you can remember me by?
