

Rude Buddha, Cry

Sometimes I feel like
No one listens to me
Sometimes I fake a smile
How did you notice you must know me so well
Hell if I ever hurt you

I wanna cry
Sometimes, I'm wrapped up so tight inside
What did I ever do to hurt you

Sometimes I feel like
No one listens to me
Sometimes I fake a smile
Should have seen the look on your face
When you looked at me and screamed
This is what happens when you hurt me
Chorus

What did I ever do to hurt you
What did I ever say
Cause I am lost in these feelings
Will they ever go away

Chorus

I think I better getaway now
You've made me feel good for nothing
Is it me or is it in my head
I just wanna have some fun
So here I go, here I go
Geronimo

Chorus

Hell if I ever hurt you
