

Rude Buddha, Down

Lately I've been thinking
about these monsters that are dragging me into the ground
should I go out drinking
or am I running away
running away from myself
So I sniffed it up (repeat)
All I wanted was a home
and all I need it
but I cant fight no more
your the only light at the end of my tunnel
but will I make it?

(chorus)

I've been feeling so down
and I've been feeling that I need you around
should I care, should I care
Cause I've been feeling so down

And then you come on over
you don't knock you just walk right through my door
good thing I'm of addictive nature
or else you wouldn't have
wouldn't have a friend at all
All I wanted was a home
and all I need it
but I cant fight no more
your the only light at the end of my tunnel
but will I make it

(chorus)

I need it in the morning
Need it in the evening
God damn I'm still breathing

(chorus)
