

# Ruff Endz, Please Don't Forget About Me

I know I made mistakes before  
But girl I never lied, still I apologize  
And I know sometimes I made you cry  
But now I realize, I need you by my side  
When it comes to you, I swallow my pride  
Cuz you're the reason why I feel so alive  
Girl please tell me you'll still be my lady  
Without your love in my life, I'll go crazy

[1]

I know I made mistakes before  
(But I never lied)  
Tell me if you're leaving me  
(Or staying by my side)

You know that I love you  
I wanna know what to do  
Please don't forget about me

I know I shoulda thought about the things I did before I did 'em  
If I could stop your tears...  
Oh girl, I can't see a way to stop the pain that you're feelin'  
If I could make it right, God knows I will  
Please give me a chance to make things right, once again  
Before we fell in love, remember we were friends  
So don't let it end

[Repeat 1]

All my life I've been searching for  
A love so true  
We've been, been together  
So girl, everything I have is yours

[Nokio of Dru Hill]  
Ruff Endz, bringin' it to you Baltimore style  
Ya know what I'm sayin, for the year 9-9  
And the Dru World Order  
Baltimore done it again  
Entity  
What you expect?  
Yo, bring it back

[Baltimore done it again]  
[Ruff Endz]  
Baby, you know I made mistakes...

[Repeat 1 to fade]
