

# Rufio, White Lights

honestly with the things i see,  
it seems as though we fly.  
stories go but stories leave  
an imprint on my mind.  
be honest... don't be afraid...  
falling over again...

time is wasted and gone  
life is passing on again.  
the white lights leading you on.  
is this the end?

so this is what you want to be?  
held too close for eyes to see your fantasy  
turn to misery.  
be honest, don't be afraid  
falling over again

time is wasted and gone  
life is passing on again.  
the white lights leading you on.  
is this the end?

i can see whats on your mind  
all i know is youre bored again  
in existence you will find  
why youre alive

time is wasted and gone  
life is passing on again.  
the white lights leading you on.  
is this the end?

time is wasted and gone  
life is passing on again  
the white lights leading you on  
is this the end?
