

Rufus, Live In Me

There's a feeling I just can't deny
It's fire straight from my soul
And it's hot enough to tear you up
Make you lose control

Gonna soothe you, put you in a trance
And get your sense aroused
So there ain't no use in holdin' back
Gotta let that feelin' out

Live in me, come in my life
Fill me with all that sweet delight
I'm burnin' up, steamin' inside
So give me the love I need tonight

Foolin' 'round, you got no time to waste
So baby turn out the light
And let's get down to what to takes
To keep me satisfied
Don't give me dreams I don't want to know
Cause I need something to hold
And action speaks more tenderness
Than words could ever show so

Live in me, come in my life
Fill me with all that sweet delight
I'm burnin' up, steamin' inside
So give me the love I need tonight

Groove with the motion
Let's take it to the top
Ride with the feeling
There's no way I'm gonna stop
I'll give you heaven
To help you through the day
And super lovin'
Takes your breath away

Live in me (just live in me)
come in my life (come in my life)
Fill me with all that sweet delight
(fill me with love, that sweet delight)
I'm burnin' up, steamin' inside
(I'm burnin' up, steamin' inside)
So give me the love I need tonight
(just give me love, I need tonight)
