

Rufus, There's No Tellin'

Tell me now don't you let me down
It's too confusing, but it's really sound
And the expression on your face lets me know
But it's alright 'cause it's your show

And recalling once again, there's one and forty roads that have no end
If there were only places where we could agree
I'd buy them all for you and me

Chorus:

It's as impossible as anything you see
Like pickin' cherries from a lusty lemon tree
If I could only walk upon the dark blue waters of the sea
There's no tellin' what I'd do for you and me

Guiding angel do your best for me
'cause I'm feeling that it's hopelessly
I hear from people tellin' him to say to me

The time for us will never be

Chorus:

It's as impossible as anything you see
Like pickin' cherries from a lusty lemon tree
If I could only walk upon the dark blue waters of the sea
There's no tellin' what I'd do for you and me

And the expression on your face lets me know
But it's alright 'cause it's your show

Chorus:

It's as impossible as anything you see
Like pickin' cherries from a lusty lemon tree
If I could only walk upon the dark blue waters of the sea
There's no tellin' what I'd do for you and me
