

# Rufus Wainwright, Vibrate

My phone's on vibrate for you  
Electroclash is karioke too  
I try to dance Britney Spears  
I guess I'm getting on in years

My phone's on vibrate for you  
God knows what all these new drugs do  
I guess to have no more fears  
But still I always end up in tears

My phone's on vibrate for you  
But still I never ever feel from you  
Pinocchio's now a boy  
Who wants to turn back into a toy

So call me  
Call me in the morning  
Call me in the night  
So call me  
Call me anytime you like

My phone's on vibrate for you  
For you
