Rufus, Your Smile

Your smile? so very happy You look familiar Reminds me of somethin' good I once felt

Thinking something mellow I dreamed of someone like you Thinking something mellow I dreamed of someone like you

Good times, good conversation

I look at myself Maintained by the completion Hm? of being stoned

I wanna thank you for being what I needed I dreamed of someone like you Thank you for being what I needed I dreamed of someone like you

I dreamed of someone like you (repeat to end)
