

# Rumbleseat, Saturn In Crosshairs (demo)

Kicked me off  
Made my wheels turn  
Rolled on way back to  
Where I'm from and what I've done  
Remembering them angels  
Through hard times  
They helped me walk them lines  
I watched that moon glow  
And felt the signs of changing times  
I won't ever scratch what we said  
Times like this I wish would never end  
You got me all lit up and crying out the same  
My wheels burned then they learned  
Right there then  
Saturn in crosshairs  
Kicked me off made my head clear  
Rolled on way back through to  
What we've done to end up here  
Remembering the ones who helped us on  
Before they moved on  
I watched that world's show  
And felt the signs of changing times  
And I won't ever scratch what we said  
Times like this I wish would never end  
You got me all lit up and shouting out the same  
My wheels burned then they learned  
Right there then
