

# Run Into The Shadows, You Know Who You Are

Im stuck in my own mind  
It tears me up inside  
But every time I let this out  
We collide  
We came together as one  
But we left separate before the night was done  
Dont turn this around on me  
Because inside you start to feel guilty  
The hands on this clock spin round and round  
We both leave here with sympathetic pride  
I wont say love you  
Then we both go down  
Well never live this  
Down tonight!  
Right now!  
Right now!  
Darling its time to face your fears  
You got the knife behind your back  
Just keep quiet and plan your escape  
No dont even say a word  
The hands on this clock spin round and round  
We both leave here with sympathetic pride  
I wont say love you  
Then we both go down  
Well never live this  
Down tonight!  
Right now!  
Right now!  
Were stuck in this place  
And made my mistakes  
I calm myself down  
And let you fall out  
Were stuck in this place!  
And made my mistakes!  
I calm myself down!  
And let you fall out!  
Fall out!  
Fall out!  
Fall out!  
Yeah!  
You pick it up!  
Im stuck in my own mind  
It tears me up inside  
But every time I bring this up  
We collide  
The hands on this clock spin round and round  
We both leave here with sympathetic pride  
I wont say love you  
Then we both go down  
Well never live this  
Down tonight!  
Right now!  
Right now!  
Right now!  
Right now!
