Run Level Zero, Fafnir Endjinn

In my dreams I cut it out / everything hurts
I will never be clean again / everything hurts

Everything hurts / every day hurts / yet another day
Cut the pain

Forgive me / can you forgive me / it's so confusing

My words injured you / your hands dropped / empty tea-cup
In my dreams / I cut it out
I will never be clean again / never be clean again
Everything hurts / every day hurts
It's another day / every day hurts
No tears left / I will never be clean
Everything hurts / I cut it out
Deeper, deeper / let's go deeper
Everything hurts / every day hurts
Just another day / every day hurts
