

Run Level Zero, Incision

I feel so weak
long lasting fight
This mental disease
a parasite
Can words heal my condition
Suicide the wrong decision

There's something gaining strength from me
Distorting my reality
There's something going on inside of me

There's a life I cannot choose
there's a place I cannot reach
Close the doors, turn off the light
close your eyes and shut them tight

I feel so weak
long lasting fight
This mental disease
a parasite
Close the door
turn off the light
Close your eyes and shut them tight
