

# Runga Bic, All Fall Down

Daylight, let it stir you  
Let it kiss the sleep out from your eyes  
Feel this weight now, lift into the sky

On and on and on

On and on and on

Cradle, so deeply

So sleepy when I close my eyes

Sprinkle morning all over you and I

On and on and on

On and on and on

CHORUS:

Sleep tonight

Drains into the morning

Let it feel alright

It beckons like a warning

Trace it, embrace it

See it crashing through this pretty light

And yes you know me and how this thing of ours goes

On and on and on

On and on and on

CHORUS

And when we touch the ground

We all fall down
