

Runner Runner, See You Around

I'm drivin'
I'm flyin'
I'm headed some place new
You're distant
I'm faded
My heart is black and blue

Remember last summer
Chasin' after you
The warm nights
The moonlight
I never had a clue

I tried to make this easy
I tried to understand
You keep it undercover
You keep it if you can

When I see you around
Don't say anything
Cause I don't want to know
When I see you around
Don't say anything
No offense to you

The winter it made you
A frozen memory
I heard all your secrets
And how it's gonna be

You looked me in the eyes
And tell me how it feels
I should have known I was dreaming
Believing you were real

When I see you around
Don't say anything
I don't want to know
When I see you around
Don't say anything
No offense to you

You can't hide behind those eyes
I've seen through all the lies
I won't give it one more try
And you know I never will
Ya know I never will

When I see you around
Don't say anything
I don't want to know
When I see you around
Don't say anything
No offense to you
You can't hide behind those eyes
I've seen through all your lies

When I see you around
