

# Running Wild, Dancing On A Minefield

Nuclear tests that reap up wealth for the rich  
They're selling their souls like a rotten sleazy bitch  
Contaminated children are born to live in pain  
No common sense if avarice rules the game

Atomic power is a dangerous and useless toy  
Telling people, it's harmless is a cunning ploy  
Allegiance is their ally so they do as they please  
They are firm in their saddle no critics there to tease

Watch out there gonna blast you  
Their bombs are made to kill  
Contracts made for profit  
Until they've got their fill

Dancing on a minefield  
After the blast then you're dying fast  
Dancing on a minefield  
Poisoning life and no one will survive

Politicians get their share when they cheat and lie  
The atomic lobby gets rich when the children die  
Setting the world on fire like playing a game  
Like an insane arsonist who's lighting the flame

Watch out there gonna blast you  
Their bombs are made to kill  
Contracts made for profit  
Until they've got their fill

Dancing on a minefield  
After the blast then you're dying fast  
Dancing on a minefield  
Poisoning life and no one will survive
