

# Running Wild, Fight The Oppression

Atomic warheads, weapons of all kind  
Invented to destroy, to find their victims, to grind  
Mendacious rulers, ministers of defence  
Leading you to war, can't you see where it all ends

Total destruction, adversary's death  
Contamination, epidemics, and fear  
Bloodshed goes on till the very last breath  
No remedy if blood feeds the gear  
Fight the oppression, now  
Fight the oppression, down

Megalomania, ruler's disease  
Deceit and treason, your life is what they seize  
All liberty is dying, to reign is the sense  
Leading you to war, can't you see where it all ends

Total destruction, adversary's death  
Contamination, epidemics, and fear  
Bloodshed goes on till the very last breath  
No remedy if blood feeds the gear  
Fight the oppression, now  
Fight the oppression, down
