Running Wild, Victim Of States Power

See the danger of armament
Each single minute can be your last
World is full of killing machines
And they want to take your life
See the cruel warpigs, they suppress you
And they treat you like a slave
But there is someone, a fallen angel
And he teach us to say "No"!!

How long do you want to be a victim of states' power and force
Stand up and struggle for freedom
And be Lucifer's friend

See the horror faces of our mankind
And the blood running down the streets
And if you are dead or alive
They will never give a damn
See the lying popes and politicians
Giving reasons for this jinx
But there is someone, a fallen angel
And he teach us to say "No"!!

How long do you want to be a victim of states' power and force
Stand up and struggle for freedom
And be Lucifer's friend
