

Rush Of Fools, We All

V.1

Oh You are love like we have never known
Before the world was born You had named us and called us Your own
We are Yours and we're broken at Your feet

Chorus

We all, We all, We all fall to the ground
Cause You're right here with us
We all, We all, We all fall the the ground
At the name of Jesus
We all, we all, we all lift up You now

V.2

Oh, its a wonder that we can engage
The King of Heaven lives in our hearts and we know Your embrace is this
You have died for us

Chorus

Bridge:

Your ways are high, they're not our own and You are seated at Your throne
And its Your love that gives us hope that you will never let us go
(repeat twice)

We all, we all, we all fall to the ground..

Oh You are love like we have never known
Before the world was born, You had named us and called us Your own
We are Yours
