

Russell Watson, The Best That Love Can Be

The Best That Love Can Be

(RW)

There was a time the fire was burning bright,

And everything was shining in the light.

But when the heart is cold,

Together we're alone,

Thinking of reasons,

To stay awake.

(C)

There was a time when love was in our bed,

Eternity in every word we said.

But when desire is gone,

It's hard to carry on.

Going through the motions,

When there's nothing there.

(RW)

You have got my heart and all I want from you.

(C)

Ooh, all I want from you.

(Both)

It's just a kiss, before we say goodbye.

(RW)

And let me keep

My memories

(Both)

Of all the times, we were amazing.

And I will keep

(RW)

In memories

(Both)

The best that love can be.

(C)

Ooh.

(Both)

It used to be we had so much to say,

Together at the ending of the day.

But when the only words

Are all the ones that hurt.

Try to remember the way we were.

(RW)

Take the past and hold it like a photograph.

(C)

I will, I will, I will.

(Both)

'Cause it's the only way to say goodbye.

(Both)

And we will keep

(RW)

The memories

(Both)

Of all the times we were amazing.

And we will keep

In memories.

The best that love can be.

The best that love can be.

We were amazing.
