

# Russell Watson, The Best That Love Can Be (Feat

There was a time the fire was burning bright  
And everything was shining in the light  
But when the heart is cold  
Together we're alone  
Thinking of reasons to stay away

There was a time that love was in our bed  
Eternity in every word we said  
But when desire is gone  
It's hard to carry on  
Going through the motions  
When there's nothing there

You have got my heart  
And all I want from you  
(All I want from you)  
Is just a kiss before we say goodbye  
And let me keep  
My memories  
Of all the times  
We were amazing  
And I will keep  
In memories  
The best that love can be  
Oh

There was a time we had so much to say  
Together at the ending of the day  
But when the only words  
Are all the ones that hurt  
Try to remember  
The way we were

Take the past and hold it like a photograph  
(I will, I will, I will)  
Cos it's the only way to say goodbye

And we will keep  
These memories  
Of all the times  
We were amazing  
And we will keep  
In memories  
The best that love can be  
The best that love can be

We were amazing
