

# Rusted Root, Airplane

Spread these wings open wide  
open wide to my grave  
Spread these wings open wide  
open wide shed these braves

We only know our love is for you  
We only know our love is for you

In the end you're a page  
of words laying across the sky  
even the airplanes gaze away  
Ah.. but they never look down  
to read what you say

We only know our love is for you  
We only know our love is for you
