

Rusted Root, She Roll Me Up

Levitate my song,
into an open space
levitate my song
I'll do my best
in this conversation
she roll me up
My best alone
my best alone
well lift me higher
lift me, lift me higher, higher
lift me, lift me higher, higher
Levitate my song,
into an open space
Levitate my song
no one will trace

Cause my friend I
I see you smile
and I know you're a gift
of the human heart
And I'm breaking open
towards your love
sometimes I'm working so hard
I don't even know my own name

Levitate my song
into an open space
Levitate my song
No one will trace

Cause this is my life
and I feel like beaming
straight into your heart
Feels like only yesterday
You were on my side

Send her my love
send her my love
send her all the words to say
cause in my heart
I don't believe
She can hurt me anymore

Return me
transform me, return me
cause I'm howling in the daylight
Yes I'm howling and it's new

I'll do my best
in this conversation
She roll me up
she roll me up
lift me, lift me higher
Levitate my song
levitate my song
No one will trace
lift me, lift me higher, lift me higher
lift me, lift me higher, lift me higher
