## Rusted Root, She Roll Me Up

Levitate my song, into an open space levitate my song I'll do my best in this conversation she roll me up My best alone my best alone well lift me higher lift me, lift me higher, higher Levitate my song, into an open space Levitate my song no one will trace

Cause my friend I
I see you smile
and I know you're a gift
of the human heart
And I'm breaking open
towards your love
sometimes I'm working so hard
I don't even know my own name

Levitate my song into an open space Levitate my song No one will trace

Cause this is my life and I feel like beaming straight into your heart Feels like only yesterday You were on my side

Send her my love send her my love send her all the words to say cause in my heart I don't believe She can hurt me anymore

Return me transform me, return me cause I'm howling in the daylight Yes I'm howling and it's new

I'll do my best
in this conversation
She roll me up
she roll me up
lift me, lift me higher
Levitate my song
levitate my song
No one will trace
lift me, lift me higher, lift me higher
lift me, lift me higher, lift me higher
