

Rutles, Let's Be Natural

Time goes by, as we all know, naturally
People come and people go, naturally
Let's be natural
ever since the world began
let's be natural
every woman, every man
let's be natural
as follows nature's plan
let's be natural
Oh, yeah
Stars are in the sky above naturally
People rise and fall in love naturally
Let's be natural
ever since the world began
let's be natural
every woman, every man
let's be natural
as follows nature's plan
let's be natural

Everything is everything naturally
Yeah, people cry, laugh and sing naturally
Let's be natural
ever since the world began
let's be natural
every woman, every man
let's be natural
as follows nature's plan
let's be natural
Yeah

It would be so natural
(repeats, fades)
