

Rx Bandits, Anyone But You

I know I was wrong
So please just take this offering,
It's all of me.
Black spin circles around my conscience
This state of responsibility is killing me
(repeat)
Hey, I never wanted to hurt anyone but you did.
What did you say?
It's days like this I think I'll never go back out there.
It's easier to be alone like this.
Impossible, inflatable too
So why don't you contribute to the effortless falling
that I'm down, about.
Impossible, inflatable too
So why don't you contribute to the effortless falling
that I'm down, about. Its killing me.
Hey, I never wanted to hurt anyone but you did.
What did you say?
It's days like this I think I'll never go back out there.
It's easier to be alone like this.
And if you stay, then I'm still lost.
In some ways this world has more to say to you
Come out of the rain, and if it won't stop then
I'm coming home, consider me forgot!
Hey, I never wanted to hurt anyone but you did.
What did you say?
It's days like this I think I'll never go back out there.
It's easier to be alone like this.
