

Rx Bandits, Band Aid

Said you're gonna get drunk tonight
i could've told you that much girl
you're gonna go out with the boys tonight
well i already know
and you said that your not better
for them or for any other guys
just because they play football and they drink and drive
well i hope you crash and die

stupid silly silly jock
why cant you realize
that girls are not just objects
or sex figures in your eyes
if i see you with those boys tonight just give me a call
and ill find another bandaid just
a bandaid for my soul

said your gonna get better
i could have told you that much girl
your gonna quit all your bad ways
well you already know
and you said that maybe some one
will like me oh just for my mind
not because of my body or my money or
anything at all

stupid silly silly jock
why cant you realize
and maybe some girl somewhere
will just recognize
if i see you with that boy tonight
just give me a call
and ill find another bandaid just
a bandaid for my soul

i need a bandaid for my soul
just one more bandaid for my soul
