

RxBandits, Maybe

go!

maybe life would be so much better without these stupid racist ways
and maybe we could get along better
if we could understand that we're all strange

[Chorus]

i could have just said no before

why can't i now?

why would you not just go away

i could have blown it off the night before

when i see you now why do you say "Just go away"?

maybe life would be so much better if we all had one million bucks

and maybe life would be so much better if people all didn't give up

[Chorus]

when i see you now why do enjoy laughing at race
