

# RxBandits, Too Tone

late at night and i'm walking the street  
right behind me Cops on my beat  
i look ahead and i want to run (want to run)  
i want to shoot them,  
but i got no gun

(Chorus)

and i said "Whatever happened to the life that i was once  
i am afraid, but i don't understand about it  
why do these hard times keep crawling up on me?"  
well, i don't know

late at night and i'm lying in bed  
some crazy thought running through my head  
i'm not sleeping and i don't know why  
i know that soon my story won't fly  
(Chorus)
