

RxBandits, What If

What if I told you
that you're a lovely gal
and i'd adore you
if you'd just show me how- right now
what if i told you
things that i have inside
shoulder to cry on
someone that i confide- right now

i can't see
the life thats left in front of me
so drop me off
i can't do
the things that i was meant to
just drop me in

what if i told you
that you're a stupid whore
and i want nothing
your life is such a bore to me
what if i told you
i speak with honesty
you said yourself, girl
best things in life are free
right now, right away

i can't see
the life thats left in front of me
so drop me off
i can't do
the things that i was meant to
just drop me in

never better, never worse
never better, never worse
never better, never worse
never better, never worse
