RxBandits, What If

What if I told you that you're a lovely gal and i'd adore you if you'd just show me how- right now what if i told you things that i have inside shoulder to cry on someone that i confide- right now

i can't see the life thats left in front of me so drop me off i can't do the things that i was meant to just drop me in

what if i told you that you're a stupid whore and i want nothing your life is such a bore to me what if i told you i speak with honesty you said yourself, girl best things in life are free right now, right away

i can't see the life thats left in front of me so drop me off i can't do the things that i was meant to just drop me in

never better, never worse never better, never worse never better, never worse never better, never worse
