

Ryan Adams, Dance All Night

She ain't lonely now
See her shuffle across the floor
Yeah, she's happier now
See her smile and say "come on";

Let's dance all night
Let's dance all night
Dance all night
Yeah, I think she'll be alright

I ain't lonely now
Yeah, I got someone I love
Someone I think about
Someone for me to take care of

Dance all night
Dance all night
Dance all night
Yeah, I think I'll be alright

She ain't lonely now
See her shuffle across the floor
Yeah, she's happier now
See her smile and say "come on";

Let's dance all night
Let's dance all night
Dance all night
I think she'll be alright
