Ryan Adams, Dance All Night

She ain't lonely now See her shuffle across the floor Yeah, she's happier now See her smile and say "come on"

Let's dance all night Let's dance all night Dance all night Yeah, I think she'll be alright

I ain't lonely now Yeah, I got someone I love Someone I think about Someone for me to take care of

Dance all night
Dance all night
Dance all night
Yeah, I think I'll be alright

She ain't lonely now See her shuffle across the floor Yeah, she's happier now See her smile and say "come on"

Let's dance all night Let's dance all night Dance all night I think she'll be alright
