

Ryan Cabrera, I Will Remember You

Eight years later
Time goes by fast
Got my memories
And they will last
I try to keep it simple cause I hate goodbyes
I try to keep it simple by telling myself that

I, I will remember you
And all of the things that we've gone through
There is so much I could say
But words get in the way so
We're not together
I will remember you
I will remember you

We're a picture in my mind
And when I wanna find you
I just close my eyes
You'll never be that far from me
So don't say goodbye cause
You'll never be that far from me
I'm telling myself that

I, I will remember you
And all of the things that we've gone through
There is so much I could say
But words get in the way so
We're not together
I will remember you

You were there when I needed a friend
Thank you, thank you
I never told you how much that meant
God thank you, thank you
I will remember you

And all of the things that we've gone through
There is so much I could say
But words get in the way so
I, I will remember you
And all of the things that we've gone through
There is so much I could say
But words get in the way so
We're not together
I will remember
We're not together
I will remember you
I will remember you
