

Ryan Malcolm, Star Of All The Planets

Don't you know you're beautiful
The light you shed, it overflows my eyes,
Can't take your blinding glow
No, oh no

If I could break into your mind
I'd leave a note that said you were like
The star of all the planets out in the sky
Tell me why

[Chorus:]
Don't you feel lovely?
Don't you feel bright?
You've got that something
I only wish you could see
How lovely you are to me
Ooh, You're lovely

If you could spy with your pretty eyes
What I can see as your very own satellite
Maybe you would get it and you'd realize, oh
You're the star of all the planets out in the sky
Tell me why

[Chorus: x1]

How lovely you are to me
Oh, you're the star of all the planets of the sky,
You're the star of all the planets of the sky
You shine so bright

[Chorus: 2x]
