

Ryan Pugal, It's Over

How I never knew
I would never be
Right here with you,
Right here with me
The chimney, The fire is burning
Your not here with me, No more
And I know you, and you know me
Baby I loved you baby you loved me
No more, no more, no more
Tell me why you crying
You wanna stop the fighting
But you don't understand the meaning
Of every word that I've been saying
No reason for me saying
Baby that I love you
Oh baby that I need you
So wipe your tears from crying
Face to face we saying bye bye
And if we only had it just another way
These last words that I say
I will always love you
And I can't explain
I can't convey
No words to say
It's spinning me
It's like I'm drowning, I'm falling,
I'm yearning, feeling for your touch
I miss you so much
I can't believe it's over
No I can't believe it's over
How we could of had a good thing
Baby why your crying
You wanna stop the fighting
But you don't understand the meaning
Of every word that I've been saying
No reason for me saying
Baby that I love you
Baby that I need you
So wipe your tears from crying
Face to face we saying bye bye
I can't believe it's over.
I can't believe it's over.Over...
Tell Me why your crying
You wanna stop the fighting
But you don't understand the meaning
Of every word that I've been saying
It's Over, it's Over, it's Over
