

Ryan Shupe & The RubberBand, Oh How I Miss You

Oh how I miss you
Wish I could kiss you
Hug you hold you
It would be bliss to
Look in your eyes see
They mesmerize me
And leave me with nothing to fear
When I see you're beside me, the whole world disappears
I want to be your one and only, I want to share your hopes and fears
And cares and laughs and all your dreams and everything in between
If you would let me be the one
Oh how I miss you
Wish I could kiss you
Hug you hold you
It would be bliss to
Look in your eyes see
They mesmerize me
And leave me with nothing to fear
Well I knew when I saw you that we would always be
And it's true that I love you with everything you hear and see
and feel and know how could you leave, I'm not a fool but I believe
That fairytales happen sometimes
Oh how I miss you
Wish I could kiss you
Hug you hold you
It would be bliss to
Look in your eyes see
They mesmerize me
And leave me with nothing to fear, with nothing to fear
