

Ryan Shupe & The RubberBand, Walk The Walk

Noah said let's build an ark and the people they just laughed
Wait and see you better believe you're gonna need yourself a raft
Then it started rainin' and the people were complainin'
Sink or swim I can't let you in you should have listened when I said

You've got to walk the walk, talk the talk
You've got to live the word, you've got to live the faith,
You've got to live the things the Lord has taught you
Walk the walk, talk the talk
You've got to live the word, you've got to live the faith,
You've got to live the things Jesus taught

Alma he was preachin' against the holy church
But the angel come and he struck him dumb and he fell down to the earth
The priests they fast and prayed for him for two days and two nights
And then he woke up and he jumped up and said I've seen the light

Jonah tried to escape the Lord by sailing across the sea
But the sailors threw him overboard he got ate by a big fishy
From the belly he prayed now Lord I understand
Then the fish spit him up right up on dry land
