

S Club 7, Alive

Yeah, c'mon!

We're lovin' every beat of the music
We're lovin' every beat of the music
We're lovin' every beat of the music
The music, the music, the music

I still remember it was day number one
We hit the ground and then we started to run
Now we're connected and I won't turn around
Cause you set me free, put my soul at ease

I just can't stop the feeling (stop the feeling)
What you give is what I'm needing (what I'm needing)
I just won't stop believing
On and on it's only just begun (it's only just begun)

I feel so (so) alive (alive)
Make it last forever
Everyday (day) is fine (is fine)
Whenever we're together (together)
I'm so (so) alive (alive)
Loving every minute
Underneath the sky there's a heaven for you and I
I feel so alive

Day number two and there's a difference in me
We're getting closer baby spiritually
I got this feeling it was just meant to be
There's an energy between you and me yeah

I just can't stop the feeling (stop the feeling)
What you give is what I'm needing (what I'm needing)
I just won't stop believing
On and on it's only just begun (it's only just begun)

I feel so (so) alive (alive)
Make it last forever
Everyday (day) is fine (is fine)
Whenever we're together (whenever we're together)
I'm so alive
Loving every minute
Underneath the sky there's a heaven for you and I

We're lovin' every beat of the music
We're lovin' every beat of the music
We're lovin' every beat of the music
The music, the music, the music

Like a waterfall coming down on me
I can't go back 'cos I'm in too deep
You make me see those things that I never seen
You know the remedy, it's obvious to me

I feel so (so) alive (alive)
Make it last forever
Everyday (day) is fine (is fine)
Whenever we're together (whenever we're together)
I'm so alive
Loving every minute
Underneath the sky there's a heaven for you

I feel so (so) alive (alive)
Make it last forever

Everyday (day) is fine (is fine)
Whenever we're together (whenever we're together)
I'm so alive
Loving every minute
Underneath the sky there's a heaven for you and I

We're lovin' every beat of the music
We're lovin' every beat of the music
We're lovin' every beat of the music
The music, the music, the music...
