

S Club 7, Dance dance dance

Dance, dance, dance
Get the party started from the left to the right
Move your body dance all night (x4)
I know a place where the mood is just right
They got the vibe and they're pumping it all night
When the heat is high and the lights are low
And when you want it, it's the only place you gotta go
We're going down to party town
I'll leave your reservations at the bus stop, baby
At the bus stop, baby, baby
Dance, dance, dance
C'mon and do it baby
Dance, dance, dance
Shake it up, shake it out
Dance, dance, dance
Just keep it movin' on the dance floor
Boogie on the dance floor, boogie-woogie
It's everywhere, it's in everything
We're getting down and the whole place is movin'
Feel the music pump
Hear the vinyl scream
Run to your mama if I scare you with my funky thing
We're going down to party town
I'll leave your reservations at the bus stop, baby
