

# S Club 7, Gangsta Love

Stand out  
Something about the way you do it  
So bottle it up that way you lose it fall out  
Big sound, dreamin' you up I'm feeling so erratic  
You're holding me down, I'm set to automatic  
So loud

Bridge  
Soul apple in every bite  
Whenever you rubbin' dubbin'  
Pineapple he's playing all night  
he's the one, he's the one baby

Chorus  
Day after day my MC  
Putting the rest to shame  
Cos he'll be giving it gangster love  
Giving it gangster love  
Day after day my MC  
Gotta give up the name  
Coz he'll be giving me gangster  
Giving me gangster love  
Spaced out  
Ready to take the seed of your intention  
Theres more than one thing  
That I forgot to mention  
No doubt, Turn round  
Been checking you out  
And watching you undo it  
Been pickin' it up  
And love the way you throw it all down

Bridge
